GETTING TO KNOW YOU! GLEN & SANDY WILD

Glen & Sandy have been active members now for several years.

They own a beautiful two-tone tan 47 Ford Super Deluxe. It has a 302 Ford engine and a nine-inch Ford rear end. When they bought the car two years ago, it was a "basket case." By making it his main project and working eight to ten hours a day on it, Glen completed the car in one year. One year.....to me that is really impressive.

Glen did most of the restoration, except the paint and upholstery. He had Watson Bros. upholster it. It has Vintage Air, power windows, and a lot of billet parts on the engine and steering area and steering wheel.

Sandy & Glen are retired. Glen retired as owner from Wild Signs, a shop that has been around for many years. Now he spends time as an elected official of District 9, MID.

He likes to do metal artwork for a hobby. When we visited their home, I admired their metal gate and when I found he had created it, I was amazed.

Sandy spends her time volunteering on projects she finds important, like doing a literacy class for the Stanislaus County Library and she also enjoys doing things for the Rotary Club.

Glen & Sandy have been together for 13 years and Sandy has two grown sons.

Being a sign painter (artist) turned out to be helpful for Glen as that is how he met Sandy. She worked for a credit union and they needed some sign work done. Glen was asked to give them a bid, so he went to the credit union and there was Sandy ...and the rest is history.

I forgot to ask him if he got the job, but more importantly he and Sandy found each other.
